DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 6-52 and 64-92 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bains et al.'584 as set forth in the previous Office Action.

In response to the applicant's arguments is the following:

Firstly, *Webster* defines "filter" as "a device, system or method used to separate or reject...". Given this definition of a "filter", "a second program component" appears to be obvious in view of Bains' the "controller 20" which allows for the "selection" (column 6, line 67) based on a given pool of filtering criteria (i.e., "individual options of each of the legs", column 6, line 67) and allows the user to choose one of these criteria (i.e., "lowest price", column 6, line 66) from the pool and gain a response/selection or option from the computer (column 7, lines 1-7).

Art Unit: 3671

Applicant's arguments filed October 27, 2004 have been fully considered but they are not persuasive.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
